h. 18,00

- Meeting on Stone with Rolly Marchi.
- Cocktail with tasting of wines and local produce of the Trentino area.

Trentino Stone
At the Portaluppi Foundation

(Trentino stone presents)

Urban Stone Design – old and new uses for Trentino Stone:
the exhibition will be held in the austere building designed by the architect
Portaluppi in the thirties, which houses the Piero Portaluppi Foundation
(via Morozzo della Rocca 5, a short distance from Santa Maria delle Grazie
and Leonardo's Last Supper).

Trentino Stone

Purple porphyry, the candour of granite, the red, pink and yellow of marble.
These are but a few of the colours that are quarried in Trentino, a sample of
stone that is highly beautiful and extremely varied. Trentino stone speaks the
ancient language of tradition and has become a leader in contemporary
architecture and design.
